Overview

Arsana Estate has a very sleek and minimal loft-style design, and has been restored with a deep understanding for its traditional Santorini architecture using the old style of polished cement and eco-friendly materials.

Elements of the factory have been incorporated into the design, and a huge piece of machinery stands like a magnificent sculpture as the centerpiece of one of the numerous living spaces.

The restoration project took years of meticulous research, as the property is located just underneath the historically important Pyrgos Kallistis. The floors were painstakingly created by a local craftsman, who mixed colors and cement to create the beautiful matte finish throughout.

Santorini is famous for her organic Cycladic architecture, but it's not every day you get to experience one like this. You have to stay here – to live in it and breathe in it – to fully appreciate the splendor of Arsana Estate high ceilings and natural light.

The villa boasts generous outdoor space: with two impressive pool terraces and various additional alfresco arrangements, you will be spoiled for choice in finding your perfect spot to lap up the Greek sunshine. Care and attention has been lavished on this home to make sure everything is stylish and luxurious without being fussy.

It offers unbeatable comfort and effortless elegance for what is truly a one-of-a-kind luxury estate.
